

Devesh Arya

Front-End Developer - [Portfolio](#)

Kamloops, British Columbia, Canada | devarya5295@gmail.com | 604-365-3413

Professional Summary

Front-End Developer with 5+ years of experience building scalable, responsive web applications using React, Next.js, and modern JavaScript (ES6+). Experienced in integrating REST APIs, improving performance, and delivering user-focused interfaces. I collaborate effectively with cross-functional teams, mentor junior developers, and support end-to-end project deliveries.

Technical Expertise - [Link to my Portfolio](#)

Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, MySQL, Webflow, HTML5, CSS3, Tailwind CSS, Sass, Responsive Design, Accessibility (a11y)

API & Data Handling: REST APIs, JSON, Fetch API, Axios, AJAX, XML, SOAP APIs

Backend & CMS: PHP, WordPress, WordPress REST API

Databases: MySQL, PostgreSQL

Version Control s DevOps: Git, Bitbucket, Azure DevOps, CI/CD Pipelines

Performance Optimization: Code Splitting, Lazy Loading, Caching, Minification, Image Optimization, Lighthouse Performance Improvements

Testing & Debugging: Jest, Cypress, Debugging, Performance Profiling

Workflow & Tools: Agile/Scrum, JIRA, Basecamp, GitHub Copilot, Cursor AI, AI-Assisted Development, Cross-functional Collaboration, Code Reviews

Work Experience

Front-End Developer | Clear Digital (Remote)

April 2021 – Present (Full-time)

- Designed, developed, and maintained responsive web applications using React.js, Next.js, TypeScript, Redux, PHP, HTML5, CSS3, and modern JavaScript (ES6+).
- Built reusable, accessible, and scalable UI components, thereby improving frontend efficiency.
- Optimized application performance through code Splitting, caching, and image optimization, resulting in reduced load times and improved Lighthouse scores.
- Implemented best practices for code quality, testing, and version control using Git, Bitbucket, and Azure DevOps.
- Conducted code reviews and mentored 5+ junior developers, improving team productivity and code consistency.
- Collaborated with designers, product teams, and clients to deliver user-focused, functional solutions on time.
- Executed agile workflows include sprints, planning, and standups to deliver high-quality projects.
- Integrated REST APIs to dynamically render data and submit forms on frontend interfaces.
- Implemented SEO best practices including metadata, structured URLs, and performance optimization.
- Leveraged AI-assisted development tools including GitHub Copilot and Cursor AI to improve development efficiency, code quality, debugging, and rapid prototyping workflows.

Education

Bachelor of Engineering (Four-year Baccalaureate – WES Approved)

National Power Training Institute (GGSIPU), India, 2013 – 2017 (Full-time)

- Hands-on experience in electronic devices, control systems and digital technologies gained through advanced coursework and a completed co-op placement.
- Developed analytical thinking, problem-solving skills, and technical foundations to implement and troubleshoot complex engineering and software systems efficiently.

Certifications

- [Advanced React - Scrimba](#)
- [META APIs - Coursera](#)
